

SAKKTHI SRI S

Coimbatore, Tamil Nadu | +91 99947 60880 | sakkthisri941@gmail.com

[LinkedIn](#) | [GitHub](#) | [LeetCode](#)

Professional Summary

Motivated Information Technology student with strong interest in Artificial Intelligence, Cloud Computing, and Software Development. Experienced in developing AI-powered applications using YOLOv8 and Swin Transformer models and building Python-Flask web applications. Completed AWS DevOps internship at App Innovation Technologies with exposure to AWS, Git, Linux, and CI/CD concepts. Strong problem-solving abilities with 100+ coding problems solved across LeetCode and GeeksforGeeks.

Education

Sri Krishna College of Technology

B.Tech Information Technology — CGPA: 7.98/10

2024 – Present

Coimbatore, Tamil Nadu

Technical Skills

Programming Languages: Python, Java, C++
AI/ML: YOLOv8, Swin Transformer, Deep Learning
Web Technologies: HTML, CSS, Flask
Cloud & DevOps: AWS, Git, CI/CD Basics, Linux
Database: MySQL
Tools: VS Code, Eclipse, PyCharm
Concepts: OOP, CRUD Operations, Object Detection

Internship Experience

App Innovation Technologies

AWS DevOps Intern

2025

Remote

- Completed internship training in AWS and DevOps practices.
- Worked with cloud deployment workflows and version control systems.
- Gained exposure to Git, Linux commands, and CI/CD concepts.
- Learned cloud infrastructure fundamentals and automation basics.

Projects

Deep Learning-Based Weed Detection System | YOLOv8, Swin Transformer

- Developed a weed detection system using YOLOv8 and Swin Transformer models as part of a team project.
- Worked on image processing and object detection for agricultural applications.
- Improved detection accuracy using transformer-based feature extraction.
- Collaborated in model training and testing during hackathon development.

Takeaway Food Order Manager | Python Flask, HTML, CSS

- Developed a web-based takeaway management system using Python Flask, HTML, and CSS.
- Implemented customer and admin login functionality.
- Added AI-powered estimated preparation time prediction.
- Integrated JSON-based order storage and order tracking features.

Achievements & Hackathons

- Secured 2nd place in an 8-hour hackathon and received a cash prize.
- Participated in 3+ hackathons including SIH and MSME Innovation Hackathons.
- Solved 100+ coding problems across LeetCode and GeeksforGeeks.
- Developed AI-powered solutions for real-world applications.

Leadership & Activities

- Participated in PSG Ideathon and collaborated on innovative problem-solving ideas.
- Presented technical seminars to classmates on emerging technologies and computer science topics.
- Actively participated in hackathons and team-based technical events.

Certifications

- AWS DevOps Internship Certificate — App Innovation Technologies
- NPTEL Elite Certification in Fundamentals of Artificial Intelligence
- NPTEL Elite Certification in Foundational Cryptography
